[Edward & Zachary's Website Project](#)

Edward and Zachary are a couple of students who created this lovely website as a fun Biology program for kids. The boys did some web searches at home and found this interesting page about chickens and their environment, including the challenges in raising them such as staving off predators and it talked about an interesting idea, which is using cameras to monitor the safety and development of the flock.

[Allandoo Pheasanry](#)

Breeders of ornamental and exotic pheasants in Southwest Scotland.
