

June 2026

We have young POL hens available for sale.

Sadly, these will be the only batch of hens available this year and we know they will go quickly. We are NOT able to hold them and so it is first come, first served.

Best way to contact us is to drop us an email/WhatsApp or text message with your contact details to arrange a collection date/time, as I don't always answer the telephone if busy.

STRICTLY BY APPOINTMENT ONLY.

All year round, we can supply:

- Hen food (20kg sack layer pellets, mixed corn etc.)
- Large plastic wrapped bale of chopped bedding
- Sacks of wood bedding
- Large bag of straw

The cost of your eggs

On average, a hen eats around 200 grams of pellets a day, so 3 hens would eat 600 grams a day, meaning that a 20kg sack of pellets would last them one month. Over 52 weeks that works out about £4.00 a week in feed to keep 3 hens, in return for 1 ½ dozen eggs.

A note about point of lay hens (POL)

Hens reach point of lay between the ages of 16 and 22 weeks. Some take far longer to start laying and hens are affected by many factors such as the weather, being moved etc. Remember, the old saying ***“all the eggs will eventually come out”*** ...

Brown Hybrid hens, lay brown eggs

Traditional brown laying hens.

White Hybrid hens, lay white eggs

Hybrid white laying hens.

Sexed Female Chicks (Sold out)

Day-old sexed chicks (all females), which are vaccinated and will grow into the same adult hybrid laying hens that we sell. But you get the pleasure of watching them grow, knowing they will be girls. We have different colours available (*please see our separate leaflet on raising chicks – it is quite easy!*).

Pekin Ducklings (Sold out) Sexed

Pekin ducklings available. A dual-purpose breed ideal for the table at 10/11 weeks or females lay around 200 massive eggs a year.

Fertile Hatching Eggs

Available late February to end October
(See our Hatching Eggs page)

WE ARE NORMALLY AVAILABLE FOR HENS 7 DAYS PER WEEK,

EVEN BANK HOLIDAYS!
